The need for a strong digital presence is more crucial than ever. Many companies have been eager to jump on this bandwagon without establishing the essential structures required to establish secure data security networks online. As one of the most commended cybersecurity practitioners in Canada, [Ira Nishisato](#) explains [cybersecurity](#) risks to businesses and ways that organizations can avoid and respond to attacks. BLG has one of the largest and most experienced cybersecurity and cyber-risk management teams in Canada, working with leading cyber-insurers. With experience managing complex investigations and advising on reporting obligations to both regulators and law enforcement, BLG is the firm companies rely on to manage stressful cybersecurity and data breach situations and to lead their teams in their preventative strategies.
