

## Investment Management

The investment management industry in Canada is both highly regulated and highly competitive. The requirements are constantly evolving, as are industry players and the demographics and needs of investors. Technology is forcing change, causing evolution and creating opportunity.

Whether you are looking to set up an investment fund in Canada, need help with understanding whether you need to register to operate your business and how to comply with regulatory requirements, or are looking to enter the Canadian market from abroad, we understand the business, regulatory and administrative issues that affect you.

With over 60 years' experience, BLG's large team is rated by Chambers Canada as one of Canada's best law firms for investment funds and asset management.

We provide clients with national, multi-dimensional legal services in a disciplined, cost effective manner.
